" (3). The Election Officer shall assign to each candidate one of the following colours, namely, red, green, blue and yellow, or where the number of candidates exceeds four the colours aforesaid and in addition thereto, purple and such other distinctive colours (except black) as the Election Officer may determine."

(iii) Sub-rule (1) of rule 11 shall be omitted and sub-rule (2) of that rule shall be renumbered as rule 11.

Polling officers shall neither be councillors for the wards for which the poll is to be taken nor registered electors thereon.

(2) The polling officer shall keep order at the polling station, shall see that the election is fairly conducted, shall regulate the number of electors to be admitted at one time, and shall exclude all other persons except—

13-A (1) The polling officer at any polling station, immediately before the commencement of the poll, shall show each of the ballot boxes empty to such persons as may be present at such station, so that they may see that it is empty, and shall then lock it up, and place his seal upon it in such manner as to prevent its being opened without breaking such seal. Candidates for University Examinations are required to observe the following instructions very carefully :—

1. Strict silence should be maintained in the examination room

2. Candidates should take their places in the examination hall at least five minutes before the time fixed for giving out the papers. Candidates presenting themselves more than half an hour after the appointed time will not be admitted to the examination hall. Candidates who are undoubtedly suffering from infectious diseases of any kind will not be admitted.

Candidates should bring with them to the examination hall, each day of the examination, their hall tickets for inspection by the Chief Superintendent.

3. Candidates are prohibited from writing upon their hall tickets or question papers. Candidates are also prohibited from writing their names on any part of their answer books, but the register number should be written very distinctly on the outer cover of each. Failure to write their register numbers may involve the rejection of answer papers.

4. Candidates are not allowed to exceed the time assigned to each paper

5. No candidate will be allowed to leave the examination room till the expiry of at least half an hour after a question paper has been given out; and a candidate who leaves the room during the period allotted for a paper will be allowed to return within that period.

6. *Candidates are forbidden to ask questions of any kind during the examination. They are also forbidden to communicate with the examiners; should they do so their answers will not be valued, and their object will be reported to the Syndicate for disciplinary action.*

Candidates are strictly prohibited from smoking in the examination room.

7. Candidates are not allowed the use of books of any kind (except as provided in Rule 8). They are also prohibited from introducing into the examination room any book or portion of a book, slate, manuscript or paper of any description, from communicating with or copying from each other, and from communicating with any person outside the examination room. Any candidate detected in the violation of these rules will be sent out of the room forthwith, and his conduct will be reported to the Registrar.

The use of stencils at University examinations is not permitted except to students answering papers in Mathematics. The use of mathematical instruments whilst answering papers in Mathematics and in Physical Science will be allowed. Such instruments will not be supplied by the University.

8. Clarke's Mathematical and Physical Tables will be supplied to candidates offering Mathematics, Physics, Chemistry, Geography, Electrical Engineering and Mechanical Engineering of the Intermediate Examination, B.A., B.Sc., B.A. (Honours), B.Sc. 9. Candidates for examination in science subjects are required to submit their laboratory note-books both in the main and in the subsidiary subjects to the Examiner concerned on the first day of the practical examination and to get them back at the close of the examination. *This instruction applies only to candidates appearing from colleges.*

10. Candidates are required to provide themselves with their own pens. Candidates may bring into the examination hall their own ink-bottles. They must, however, use only black ink while answering their question papers.

11. Particular attention is requested to the instructions regarding rough working and loose sheets of paper printed on the answer-books. All rough working must be shown on the left hand page of the answer-books themselves. No separate books for rough working will be supplied to candidates. Paper must not be detached from the answer-books of candidates. If the ordinary answer books are found insufficient, additional books will be allowed and these should be securely fastened to the answer-books.

12. As soon as candidates have finished writing their answers, and wish to give up their answer-books, or at the end of the period prescribed for each particular part of the examination, each should stand up in his place and remain standing until one of the Superintendents has come up to him and has received his answer book from him.

Where the halls are suitable, the following alternative procedure may be adopted: At the end of the period prescribed for each particular paper the candidates should at once fold their answer books, leave them in evidence at their places, vacate their seats, retire to the passages between the tables and move out of the hall in order and in silence, the Superintendents being meanwhile stationed in position from which they may command a good view of the blocks entrusted to their care; when all the candidates have moved out the Superintendents will collect the answer-books.

13. Communications to the Registrar from candidates requiring information relating to the results of examinations will not receive attention until after the publication of the results in the *Fort St George Gazette*.

14. All Mufassal candidates must obtain their hall tickets from the Chief Superintendents of the respective centres at which they are to be examined, three days before the commencement of the examination. Candidates for University Examinations are required to observe the following instructions very carefully :—

1. Strict silence should be maintained in the examination hall.

2. Candidates should take their places in the examination hall at least five minutes before the time fixed for giving out the papers. Candidates presenting themselves more than half an hour after the appointed time will not be admitted to the examination hall. Candidates who are undoubtedly suffering from infectious diseases of any kind will not be admitted.

Candidates should bring with them to the examination hall, each day of the examination, their hall tickets for inspection by the Chief Superintendent.

3. Candidates are prohibited from writing upon their hall tickets or question papers. Candidates are also prohibited from writing their names on any part of their answer books; their register numbers should be written very distinctly on the outer cover of each paper. Failure to write their register number may involve the rejection of answer papers.

4. Candidates are not allowed to exceed the time assigned to each paper.

5. No candidate will be allowed to leave the examination hall till the expiry of at least half an hour after a question paper has been given out; and no candidate who leaves the room during the period allotted for a paper will be allowed to return within that period.

6. *Candidates are forbidden to ask questions of any kind during the examination. They are further forbidden to communicate with the examiners; should they do so their answers will not be valued, and their conduct will be reported to the Vice-Chancellor for disciplinary action.*

7. CANDIDATES ARE NOT ALLOWED THE USE OF BOOKS OF ANY KIND (EXCEPT AS PROVIDED IN RULE 8). THEY ARE ALSO PROHIBITED FROM INTRODUCING INTO THE EXAMINATION HALL ANY BOOK OR PORTION OF A BOOK, MANUSCRIPT OR PAPER OF ANY DESCRIPTION, AND FROM COMMUNICATING WITH ANY PERSON OUTSIDE THE EXAMINATION HALL. WHERE, IN CONTRAVENTION OF THE RULES OF THE EXAMINATION, A CANDIDATE IS FOUND IN POSSESSION OF NOTES, PAPERS OR BOOKS RELATING TO THE SUBJECT IN WHICH HE IS ANSWERING A QUESTION PAPER, HE SHALL BE EXCLUDED FROM THE EXAMINATION HALL FOR THAT PAPER AND THE MATTER SHALL BE REPORTED TO THE SYNDICATE WHO MAY DEBAR HIM FROM APPEARING FOR THE EXAMINATION FOR A PERIOD OF ONE YEAR. IN CASES IN WHICH THE CANDIDATE IS FOUND MAKING USE OF NOTES AND PAPERS IN CONTRAVENTION OF THE RULES OF EXAMINATION, HE SHALL BE DEBARRED FOR A PERIOD OF TWO YEARS.

No separate books for rough working will be supplied to candidates. Paper must not be detached from the answer books of candidates. If the ordinary answer books are found insufficient, additional books will be allowed and Cross sheets be securely fastened to the answer books.

12. AS SOON AS CANDIDATES HAVE FINISHED WRITING THEIR ANSWERS, AND WISH TO GIVE THEIR ANSWER BOOKS, OR AT THE END OF THE PERIOD PRESCRIBED FOR EACH PARTICULAR PART OF THE EXAMINATION, EACH SHOULD STAND UP IN HIS PLACE AND REMAIN STANDING UNTIL ONE OF THE SUPERINTENDENTS HAS COME UP TO HIM AND HAS RECEIVED HIS ANSWER BOOK FROM HIM.

If the tender is made by an individual, it shall be signed with his full name and his address shall be given. If it is made by a firm, it shall be signed with the co-partnership name by a member of the firm, who shall also sign his own name, and the name and address of each member of the firm shall be given. If the tender is made by a corporation, it shall be signed by a duly authorised officer who shall produce with his tender, satisfactory evidence of his authorisation. Such tendering corporation may be required before the contract is executed, to furnish evidence of its corporate existence.

3. This earnest money will be refunded to the unsuccessful tenderer on application after intimation is sent of rejection of the tender or at the expiration of two months from date of tender whichever is earlier. The refund will be authorised by the Executive Engineer by suitable endorsement on the challan. The earnest money will not be recovered in cash or currency notes by the Public Works Department officers, save in exceptional cases where there are no treasuries or banks within the jurisdiction of the officer calling for tenders. When currency notes are given, the tenderer should sign his name in full with date, on the back of all the currency notes given by him, whatever their denomination may be.

The earnest money will be retained in the case of the successful tenderer and will not carry any interest. It will be dealt with as provided in the tender.

4. When a tender is to be accepted, the tenderer whose tender is under consideration shall attend the Division office on the date fixed by written intimation to him. He shall forthwith upon intimation being given to him by the Executive Engineer of acceptance of his tender make a security deposit of rupees fifty only in one of the forms prescribed in the Madras Public Works Account Code and sign an agreement in the proper departmental non-judicial stamp paper form for the due fulfilment of the contract. This security deposit together with the earnest money and the amount withheld according to clause 68 of the Standard Preliminary Specification of the Madras Detailed Standard Specifications will be retained as security for the due fulfilment of the contract. If a cash security deposit is made by the contractor he shall follow the procedure laid down in the preceding paragraph for payment of earnest money and such deposit will not bear interest. Failure to attend the Division office on the date fixed in the written intimation from such office or to sign into the required agreement or to make the security deposit as clothed in this paragraph, shall entail forfeiture of the earnest money.

5 The tenderer shall examine closely, the Madras Detailed Standard Specifications, and also the Standard Preliminary Specification contained therein, and scan the Divisional office copy of the Madras Detailed Standard Specifications and its schedule volume as token of such study in future submitting his tender and rates which shall be for finished work in situ. He shall also carefully study the drawings and additional specifications and all the documents which form part of the agreement to be entered into by the accepted tenderer. The Madras Detailed Standard Specifications and other documents connected with the contract such as specifications, plans, descriptive specification sheet regarding materials, etc., can be seen at any time between 11 a.m. and 3 p.m. on office days in the office of the Executive Engineer, Guntur Division.

6. The tenderer's attention is directed to the requirements for materials under the clause "Materials and workmanship" in the "Preliminary specification." Materials conforming to the British Standard Specifications shall be used on the work, and the tenderer shall quote his rates accordingly.

7. Every tenderer is expected, before quoting his rates, to inspect the site of the proposed work. He should also inspect the quarries and satisfy himself about the quality and availability of materials. The names of quarries, kilns, etc., wherefrom certain materials are to be obtained will be given in the Descriptive Specification sheet. The best class of materials to be obtained from the quarries or other sources defined shall be used on the work. In every case the materials must comply with the relevant standard specification. Samples of materials as called for in the standard specifications or in this tender notice or as required by the Executive Engineer in any case shall be submitted for the Executive Engineer's approval before the supply to site of work is begun. If the contractor after examination of the source of materials defined in the Descriptive Specification sheet is of opinion that materials complying with the standard or other specifications of the contract cannot be obtained in quality or sufficient quantity from the source defined in the Descriptive Specification sheet, he shall so state clearly in his tender and state wherefrom he intends to obtain materials subject to the approval of the Executive Engineer.

The Government will not, however, after acceptance of a contract rate pay any extra charges for lead or for any other reason, in case the contractor is found later on to have misjudged the materials available. Attention of the contractor is directed to the standard "Preliminary Specification" regarding payment of salvage, etc.

8. The tenderer's particular attention is drawn to the sections and clauses in the standard "Preliminary Specification" dealing with—

(1) test, inspection and rejection of defective materials and work;

The contractor should clearly perform all the specification clauses which govern the rates which he is tendering.

9. A schedule of quantities accompanies this tender notice. It shall be distinctly understood that the Government does not accept any responsibility for the correctness or completeness of this schedule, and that this schedule is liable to alterations by omissions, deductions, or additions at the discretion of the Executive Engineer, Guntur Division, or as set forth in the conditions of contract. He should quote specific rates for each item in the schedule, and the rates should be in rupees, annas and pie annas of three pies. The rates should be written both in words and figures and the units in words. The tenderer should also show the totals of each item and the grand total of the whole contract and quote in the tender a lump sum for which he will undertake to do the whole work subject to the conditions of contract. The schedule accompanying the lump-sum tender shall be written legibly and free from erasures, overwritings or conversion of figures. Corrections, where unavoidable, should be made by crossing out, initialing, dating and rewriting.

10. Tenders offering a percentage deduction from or increase on the estimate amount, and those not submitted in proper form or in due time will be rejected. Rates or lump-sum amounts for items not called for shall not be included in the tender. No alteration which is made by the tenderer in the contract forms, the conditions of contract, the drawings, specifications, or quantities accompanying same will be recognized, and if any such alterations are made, the tender will be void.

11. The tenderer should work out his own rates, without reference being made to the Public Works Department current schedule of rates or to the Public Works Department estimate rates which are not open for inspection by tenderers.

12. The attention of the tenderers is directed to the contract requirements as to the time of beginning work, the rate of progress and the dates for the completion of the whole work and its several parts. The following rate of progress and proportionate value of work done from time to time as will be indicated by the Executive Engineer's certificates of the value of work done, will be required. 14. If further necessary information is required, the Executive Engineer of the division will furnish such, but it must be clearly understood that tenders must be received in order, and according to instructions.

15. The Executive Engineer or other sanctioning authority reserves the right to reject any tender or all the tenders without assigning any reason therefor.

16. No payment will be separately made for bailing water from foundation and forming protective bunds, clearing jungle at site and diversion of roads required during execution. The rates quoted by the tenderer must include the abovementioned charges.

17. The tenderer may however mention an earlier date which fact will be taken into consideration and this earlier date will thereafter be considered as the date fixed for completion of the work.

18. The qualification of the supervising staff employed by the contractor in the execution of the work will be given due consideration in awarding the contract. The tenderer should therefore state in clear terms whether they employ such technical staff and if so to give the qualifications of such staff and the extent to which they will be employed on the work.

VACANCIES.

APPLICATIONS are invited from candidates for four vacancies of apprentices in Cordite Factory, Aruvankadu, Nilgiris.

2 A candidate must be a male and either—

(i) a British subject of Indian domicile whose father (if alive) is a British subject, or a subject of a State in India, or (if dead) was at the time of his death either a British subject or a subject of a State in India, or a person in the permanent service of the Crown, or a person who had retired from that service, or

(ii) a ruler or a subject of a State in India:

Provided that in the case of a male British subject the requirements of this rule (other than the requirement of Indian domicile) may be waived by the Secretary of State in Council if he is satisfied that their observance would occasion exceptional hardship, and that the candidate is so closely connected by ancestry or upbringing with His Majesty's dominions as to justify special treatment.

Provided also that a ruler or a subject of a State in India cannot be appointed unless he has obtained a declaration under section 99-A of the Government of India Act.

3. A candidate must be in good mental and bodily health and free from any physical defect likely to interfere with the efficient performance of his duties in the Ordnance and Clothing Factories. A candidate who is found after examination by a medical officer not to satisfy these requirements will not be appointed. Only those candidates who are likely to be appointed will be medically examined. In order to prevent disappointment candidates are recommended to consult a medical practitioner, preferably a Civil Surgeon, as to their physical fitness in accordance with the prescribed regulations.

4 A candidate for appointment as apprentice must have attained the age of 18 years and must not have attained the age of 24 years on the 1st day of August next preceding the selection and must hold a degree in Science (with Chemistry as principal subject) and have received training in Chemical Engineering at a University or Technical College approved by the Controller-General in Council.

5 A candidate must be unmarried and must undertake not to marry during the period of apprenticeship.

6. A candidate must submit his application giving particulars of (1) full name, (2) educational and technical qualifications, (3) date of birth, (4) caste or creed and (5) whether married or not together with certificates of character from two gentlemen who are either in Government service or occupy public positions and the medical certificate of physical fitness, on or before 8th September 1937.

7. Any attempt on the part of a candidate to obtain support for his candidature by other means may disqualify him for appointment.

8 Applicants must at their own expense appear for a personal interview if called upon to do so.

9 The course will last for three years from date of joining

Pay—1st year Rs. 50 per mensem
2nd year Rs. 60 per mensem
3rd year Rs. 70 per mensem.

NOTE 11.—The above rates of pay are subject to such alterations as Government may hereafter decide upon.

NOTE 12.—Annual increments will not be admissible as a matter of course, their grant in whole or in part will depend upon the satisfactory work and conduct of the apprentice during the period of training.

10. Although housing accommodation is not guaranteed, the apprentices will be required to live in Government quarters. Charges on account of house rent, electricity for lighting and fans, water-tax and conservancy will, in the latter case, not be recovered from the apprentices.

11. Fifteen days' leave on full pay or 30 days' leave on half pay in the year will be granted to an apprentice at the discretion of the Superintendent or other officer in charge of the Factory. Hospital and casual leave with pay for a period not exceeding one month at a time will also be granted for periods of absence authorised by the medical authorities on account of injuries received while on duty, inoculation, or segregation or when the apprentice is sent to a Pasteur Institute for anti-rabic treatment, provided that such leave is authorised by the rules in force for other manual workers employed in the factories.

12 BONUS.—A bonus on one month's pay will be credited to each apprentice on completion of each year of satisfactory service, and placed on his behalf in an account in the Post Office Savings Bank or the Imperial Bank of India. The money so accruing to the credit of the apprentice will only be paid to him if he completes the full apprenticeship to the satisfaction of the Superintendent or other officer in charge of the factory and then only after any charges outstanding against him have been liquidated therefrom. The bonus of an apprentice, if withheld, will be credited to Government.

13 Apprentices must abide by any local rules framed by the Superintendent for appointment and training of apprentices.

14 There is no guarantee to employ apprentices on the completion of their courses, though everything possible will be done to find employment for them. Nor will it be obligatory on the apprentices to remain in the factories on the completion of their courses.

MADRAS PORT TRUST.

NOTIFICATION.

No. 2.—In exercise of the powers conferred by clause (10) of section 96 of the Madras Port Trust Act, 1905 (Madras Act II of 1905), and in supersession of the by-law published with the notification of the Government of Madras in the Finance (Marine) Department, No. 98, dated the 23rd December 1931, the Madras Port Trust Board hereby makes, subject to the approval of the Central Government, the following by-law for regulating the bunkering of vessels with petroleum liquid fuel at the Port of Madras by means of the Board's service pipe lines, namely:—

BY-LAW.

Bunkering of vessels with petroleum liquid fuel at the West and the North Quays by means of the Board's service pipe lines, will be allowed subject to the conditions specified hereunder, namely —

(1) During all such time as any vessel is receiving liquid fuel into her bunkers, the Master or First Mate of such vessel shall be present on board. It shall be his duty to see that the conditions specified in this by-law are complied with and that all reasonable precautions for safety are observed.

(2) A ship's officer shall be on watch and no attendant shall be stationed alongside the flexible connexion pipe while bunkering is in progress.

(3) Suppliers of liquid fuel shall be responsible for seeing that all flexible pipes used for bunkering vessels are tested to a pressure of 80 lb. per square inch before operations commence, and that all joints are oil-tight; that when flexible pipes are dismantled, any unavoidable spillage on the quay shall be properly cleaned up with sand. No bunkering shall be commenced until the supplier has delivered to the Board a certificate to the effect that all flexible pipes to be used in the operation have been tested as required by this by-law. Officers in charge of vessels which receive liquid fuel for bunkering shall be responsible for seeing that all valves on ship's tanks or connexions are properly regulated to receive liquid fuel and due warning shall always be given to suppliers by ship's officers before any valves are closed to prevent the possibility of a sudden increase in pressure which may cause a burst in the flexible pipe or elsewhere and a consequent leakage of oil. Owners of vessels which receive liquid fuel for bunkering and suppliers, shall be severally responsible for seeing that bunkering operations are conducted with cleanliness and in an orderly manner and any damage resulting from neglect of all proper precautions shall render them liable under clause (4) below.

(4) Suppliers of liquid fuel for bunkering shall be liable for any damage whatsoever caused to cargo or property belonging to or in charge of the Trustees by any leakage of fuel oil due to or arising from negligence or any defect in or failure of, apparatus or appliances belonging to the suppliers.

The Master and Owners or the Agents of the vessel receiving such fuel shall also be liable for any such damage if caused by negligence or defect or failure of apparatus or appliances belonging to the vessel.

(5) No cargo other than steel plates, iron rails and similar goods unaffected by oil shall be allowed on the wharf within 50 feet of the oil stand pipes, and shed doors immediately behind them shall be kept closed while bunkering is in progress.

(6) Before bunkering commences, the ship's attendant shall see that the telephone connexion to the oil company's depot is in working order.

(7) An attendant shall be on duty at the pump throughout the time of bunkering.

(8) At least two hours' notice in writing shall be given to the Deputy Port Conservator before bunkering is commenced.

(9) No bunkering shall be commenced unless a sand-cart containing 18 c.ft. of sand is on the spot at the supply pipe.
